SKILLS

- Frontend Development
- Backend Development
- Database Management
- Data Analysis & Visualization
- Discord Bot Development
- Agile Development & Scrum Methodology
- Basic Accountancy
- Business Digitialization

LANGUAGES

- English
- Chinese

PROGRAMMING KNOWLEDGE

- HTML, CSS, JavaScript
- Python
- C#

PROFESSIONAL EXPERIENCE

As a Software Developer Intern, I built responsive UIs with React and MUI, developed backend features using Express.js and SQLite, and integrated APIs for smooth data handling. My NYP projects strengthened my full-stack development skills, from designing clean interfaces to managing databases and working with real-time data.

WORK EXPERIENCE

Software Engineering Intern @ NTUC Enterprise
January 2024 - July 2024

- Built internal dashboards with React and Chart.js
- Developed APIs using Express.js and SQLite
- Used Git and Agile for team collaboration
